

CLEVER VISITOR CHAIR

CLEVER

Design by Paolo Scagnellato & Jeremiah Ferrarese

CLEVER

A chair for everyday occasion!

The Clever range has been designed as versatile, economically priced seating. In designing the Clever chair stress was put on utility, simplicity and favourable price as well as ergonomics, design and reliability. It is this combination that makes the Clever range unique.

CLEVER

Each chair comes with a locking clip which enables the chairs to be linked together in rows. Clever chairs are easy to stack (with 13 being the recommended maximum number that can be stacked together). A special trolley has been designed for the Clever series to facilitate chair transport.

CLEVER 112

* Stackable conference chair, four-legged steel frame, without armrests, integrated locking clip to link chairs in rows, upholstered seat and backrest.

CLEVER 114

* Stackable conference chair, four-legged steel frame, without armrests, integrated locking clip to link chairs in rows, plastic seat and backrest. (selection of colours)

CLEVER 115

* Stackable conference chair, four-legged steel frame, without armrests, integrated locking clip to link chairs in rows, upholstered seat and plastic backrest.

Chair	Overall Height	Seat Height	Depth	Width
Clever 112	780	450	550	570
Clever 114	780	450	550	570
Clever 115	780	450	550	570

The Clever chair comes with a tablet arm to suit any educational environment.
